

The 2009 BASI Report and City Solar Awards Celebration are made possible through contributions from our entire membership ---individuals, business and corporate members, as well as member organizations who have provided additional sponsorship for this educational program efforts.

Through a joint strategic educational partnership, Intersolar North America is sponsoring the City/County Solar Awards Celebration as part of the Intersolar North America conference in San Francisco – July 13-15, 2010.

Thank You!
