Summary

Solar Richmond

(510) 496-2722

Non-profit local program to encourage more solar energy on residential, business, and public properties in Richmond. Goal is 5 megawatts of solar energy installed by 2010 and 100 new jobs.

Solar Sebastapol

Program to encourage more solar energy on residential, business, and public properties in Sebastopol. Goal is to install 1 megawatt of solar by year-end 2006.

Solar Stinson

The Stinson Beach Solar Committee (SBSC), is an ad hoc committee of the Stinson Beach Village Association. SBSC meets monthly to discuss 'solarizing' Stinson Beach as well as to tour, publicize and support ongoing and pre-existing Stinson Beach solar projects.

Redwood Coast Energy Authority

(707) 269-1700

Representing seven municipalities (the Cities of Arcata, Blue Lake, Eureka, Ferndale, Fortuna, Trinidad and Rio Dell) and Humboldt County. Purpose is to develop and implement sustainable energy initiatives that reduce energy demand, increase energy efficiency, and advance the use of clean, efficient and renewable resources available in the region.

North State Renewable Energy

The North Valley Energy Group is a consortium of civic leaders, educators, and energy professionals based in Chico, California. The purpose of the group is to foster the development of renewable energy resources in Northern California, specifically the Northern Sacramento Valley.
